

MARCIN BEDNARZ

WEB DEVELOPER

DOB: 11/02/1992 Salzburg, Austria +43 6767073230

PROFILE:

I am a web developer and my aim for this year is to start a [full-time job at an entry-level](#). My previous career background was related to the electronic/electric industry. But I found that web development gives me more opportunities for development and creativity.

Currently, I live in [Salzburg, Austria](#), and work remotely as a freelancer developing websites, copywriting, and solving some coding problems for a variety of clients.

Experience:

January 2022 – Current

Full Stack Web Developer Internship

- Developing my own small front-end systems
- Supporting an experienced web developer
- Developing web development projects together with the team
- Design and implementation of business logic
- Creating project documentation

Technology: HTML/SCSS/JavaScript/TypeScript/Node.js/Express/Apollo/Git

Previous Jobs not related to Web Dev: Electronic Engineer (2018-2021), High Voltage Technician (2020 -2021)

Education:

January 2021 – October 2021

Front End Developer Track – Full Stack Developer Track
Treehouse Bootcamp - Remote

September 2015 - June 2019

Ba. in Adventure Tourism Management
University of Highlands and Islands - Fort William, Scotland

September 2008 - June 2012

Secondary Technical School of Electronic Engineering
ZS im. Ks. Stanisława Staszica -Tarnobrzeg, Poland

Projects:

www.madmai.pl

My first professional web site fully created, designed and developed by myself. I was inspired by simple styled business website that you can find in the web. I had to respond on client requirements. I received from him a good feedback.

www.skyebazaar.com

I created Skye Bazaar web store using a Shopify CMS and still maintaining that. Working with CMS and my task for next weeks is to create some product color template app..

www.mbednarz.website

My Portfolio website where you can see a bit more projects.
Fully created by myself.

www.nielysiej.pl

I done some CSS work for this real business page based on Wordpress CMS and in Dec 2021 set up working forum by MyBB with working shoutbox.

Technologies:

- HTML / CSS (SCSS)
- JavaScript
- TypeScript
- React JS / React Native
- Node.js
- SQL DB
- GraphQL / Apollo
- Docker (Microservices)
- Python (bit of Flask experience)
- Git
- Gimp / PS
- Linux

Languages:

- English C1 (Fluent)
- Polish Native
- German A1 (Basic)

Summary:

- I would like to change my industry into IT development. I have electric and electronic engineering background.
- Strongly focus on developing myself. I am exploring programming world and learning about new problems every day.
